

ROSE VALLEY WIND ENERGY FACILITY OPEN HOUSE & JOB FAIR

You're invited to the upcoming open house and job fair for the proposed Rose Valley Wind Energy Facility (the "Project"). Please join us on:

Tuesday, March 31, 2026

4:00 PM – 6:30 PM

Verwood Community Hall

SE Corner of Main Street and Prairie Avenue, Verwood

At this open house, you'll have the chance to learn about the latest project updates, upcoming construction activities, proposed delivery routes, and the updated construction schedule.

Representatives from SkyFlo, the Project's construction contractor, will also be on-site to provide information about job opportunities available during Project construction. Skyflo is committed to hiring as many local candidates as possible and various positions will be available.

Detailed project maps and information panels will be displayed at the open house. You can also find the latest information on our website: <https://www.potentiarenewables.com/our-portfolio/rose-valley-wind-energy-project/>. Following the open house all information panels will also be made available on the website.

For more information, you can contact us via email at info@rosevalleywindproject.com.

We look forward to seeing you at the open house!
